

A GOLD STANDARD SERVICE PROVIDER

The ASP Ships Group of companies (ASP) was originally established in Melbourne Australia in 1991. Over the years, ASP has enhanced its capabilities and grown the core business to become an established World Leader in the provision of Ship Management, Crew Management and turnkey Maritime Service Solutions. Today, ASP operates on a global scale through 12 offices located in 10 different countries. ASP's Maritime Service Solutions also incorporates our highly specialized and experienced Marine and Technical Services division.

ASP Marine & Technical Services consist of qualified marine engineers who have extensive seagoing and project management experience. Our key staff are based in Singapore and Melbourne and they attend to client requirements anywhere in the world as and when required.

Some of the services provided by ASP Marine and Technical Services are:

- Newbuilding supervision and plan approval;
- Ship & Marine related Surveys/Inspections;
- Dry-dockings and major repairs/refits;
- Ship Design inputs and development, including Naval Architecture (sub-contracted);
- Ship conversion projects;
- Vessel Life extension programs;
- Hull Structure Steel replacement programs;
- Technical assistance for equipment upgrades – including (NOx Tier 3 SCR Systems & BWTS) to meet new IMO regulations;
- Vessel Condition surveys;
- Vessel On / Off Hire surveys;
- Shipyard and dry-dock evaluation and selection;
- Ships inspections (for Sale & Purchase);
- Audits of ships, systems, processes, etc.; and
- General Marine and Technical Consultancy.
