Digital Ship Management Solutions for Ship Owners

ASP SHIPS GROUP

We manage maritime assets more efficiently, ensure compliance, and minimise risk by using modern digital systems.

Our global network of offices allows us to manage ships trading worldwide and provide crew from a wide range of nationalities.

- Ship Management
- Technical Support
- Crew Management
- Newbuilding Supervision
- Marine Logistics

BENEFITS OF DIGITAL SYSTEMS

- Real time access to information – vessel position, routing, machinery status, operational performance and financial data

- Single source of truth for all stakeholders onboard ship and ashore

- Improved decision making

- Enhanced operational efficiency

- Improved Safety

- Lower Costs – bunkers, lubes, maintenance, crew rotation
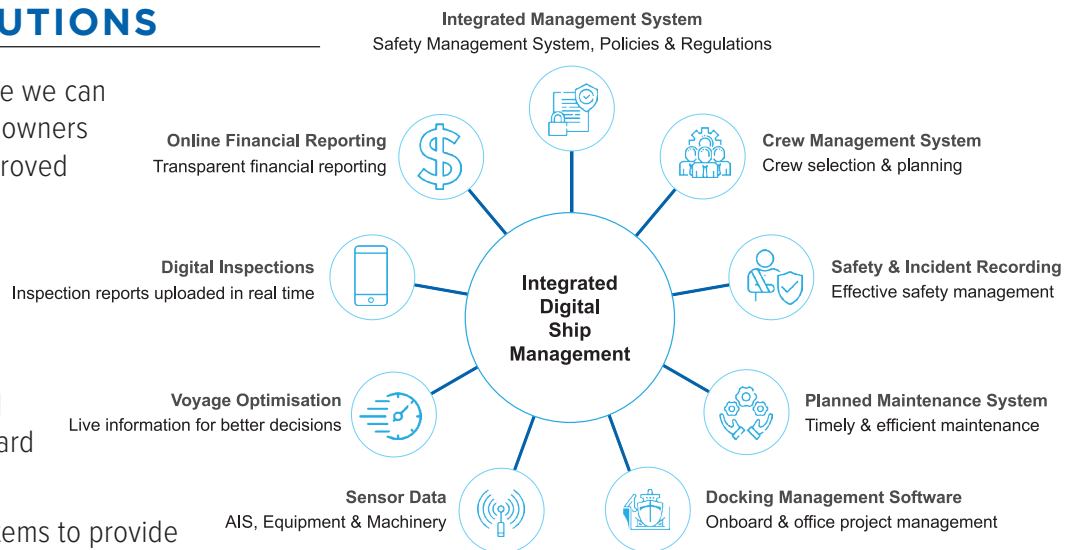

- Better compliance management

ASP DIGITAL SOLUTIONS

We focus on the key areas where we can deliver tangible benefits to ship owners – reduced costs, lower risk, improved voyage performance and better compliance management.

We utilise the best technology to provide huge benefits but at a low cost. We also employ the latest AI technology to avoid expensive monitoring and onboard installation costs.

Then we integrate all of our systems to provide real time transparent data for the ship owner.

This allows us to reduce costs; optimize voyage routing; and closely manage speed/consumption, emissions reporting and engine/hull performance.

Integrated Management System
Safety Management System, Policies & Regulations

Online Financial Reporting
Transparent financial reporting

Crew Management System
Crew selection & planning

Digital Inspections
Inspection reports uploaded in real time

Integrated Digital Ship Management

Safety & Incident Recording
Effective safety management

Voyage Optimisation
Live information for better decisions

Planned Maintenance System
Timely & efficient maintenance

Sensor Data
AIS, Equipment & Machinery

Docking Management Software
Onboard & office project management

UNIQUE DASHBOARDS

ASP provides transparent real time data to our ship owners – carefully curated to offer a high level snapshot of key data. Then we display this in our unique dashboards that are accessible on-line.

Simple, effective and beneficial for our clients.
